Gary,

I spoke with Walter about the SPG's request for a meeting, and he is willing to meet with the SPG. I would characterize EPA's position on this meeting as neutral -- it is not that EPA is asking for a meeting, but we are open to hearing what the SPG has to say.

Timing: Since the SPG plans to make a presentation relating to the Low Resolution Coring data, the meeting should be scheduled for some point after EPA has received the LRC report and has been able to review it. If the report is due at the end of February, mid-March is probably the earliest time we should consider for a meeting. Could you propose a few dates in mid to late March (or anytime thereafter)?

Also, before we meet, we would like you to identify the members of the SPG and provide an agenda. When we see your agenda we will let you know if there anything that EPA wishes to add.

Incidentally, probably you would have done this yourself, but we will let Bill Hyatt know about the meeting.

I look forward to hearing from you with some potential meeting dates.

Regards,

-Sarah

Subject RE: Diamond Alkali

Sarah -

EPA would be meeting with representatives of the SPG. The SPG

consists of 50 of the 69 non-Tierra members of the CPG. John Connolly of Anchor QEA is the SPG's consultant, and we anticipate he would make a presentation. We have not made any decision as to the limited number of parties that would attend. I would have to ask the SPG if you actually want a list of the 50 members.

Best,

Gary P. Gengel

Gary,

Two more questions: 1) if such a meeting were to take place, with whom would EPA be meeting, and 2) assuming not all subgroup members would attend, what parties would the attendees be representing? Is there a list of subgroup members?

Thanks.

-Sarah
